

BASIC RESET™ REFERRAL OPPORTUNITY

On level 1 Affiliates earn **20% commissions with no qualifications.**

Plus...we give all new Customers and Affiliates a 1-time 20% off coupon on their first order.

The 20% off coupon MUST be used **the same day of signup.** It's like new Affiliates receiving a 20% "fast start bonus" on their own order AND because we pay 20% on direct sales...it's like their sponsor getting a "matching" 20% bonus!

Note: If a new Affiliate fails to use the 1-time coupon on the **same day they sign up,** their coupon will be void. So...if the new Affiliate wants to take advantage of the 1-time coupon, but is not ready to order...**then the affiliate should wait to sign up.**

We pay a "whopping" **50% total commissions on the first 3 levels.** This is unmatched and unheard of in this industry! You must have a **personal qualifying minimum order of \$29.95 to earn commissions on Level 2 and beyond.** The personal order required does not qualify you for the month in which it is placed, but **it qualifies you for the following month.**

***Paying 50% commissions on the first 3 levels is unheard of in the industry!**

What you should know before becoming an Affiliate

Commissions on your personal orders **belong to your sponsor.**
Violating our “**No Stack**” Policy can result in termination.

Q. What is "Stacking"?

A. Stacking is ordering your personal products under someone in your downline and receiving commissions on them. **It is unethical and no one should earn commissions on their own orders.** This would be in violation of our No Stack Policy and could result in termination.

Q. Are married couples allowed to sponsor each other?

A. No...married couples are **not allowed to sponsor each other and order products under the 2nd spouse to earn commissions on their own orders.** This would be in violation of our No Stack Policy and could result in both accounts being terminated.

Q. Are married couples allowed to have their own affiliate sites?

A. Yes...as long as each spouse has the **same identical sponsor and not each other.**

Q. Can a married couple sponsor others who live in their household?

A. Yes...a married couple can sponsor any adult 18 years and older that is living in the same household. However, **no one in the household is allowed to place their personal orders underneath someone else in the household.** This would be in violation of our No Stack Policy and could result in termination.

Q. Can I set up my business store so I can retail the product in my store?

A. Yes...however, the business must be enrolled as a **customer only, and not as an affiliate.** Also, you must register your store with the home office. The business owner **must never combine their personal product order with the store product order.** This would be in violation of our No Stack Policy and could result in termination.
